PROJECT OVERVIEW

Admissions website for a school serving a defense community

Admission rules, fees, timings and the year planner answered the way parents ask, with photo and video galleries.

Admissions website for a school serving a defense community

Admission rules, fees, timings and the year planner answered the way parents ask, with photo and video galleries.

CLIENT	INDUSTRY	PLATFORMS
A school serving a defense community in India	**Education**	**Web**

THE REQUIREMENT

Parents needed one place to find admission and withdrawal rules, fees, timings, uniform and syllabus. The school also wanted to show its activities, celebrations and facilities.

WHAT WE BUILT

We built a school website organized around what parents look for: admissions, school information, activities, gallery and news. The school supplied the text, logo and graphics. We arranged hosting and the domain.

THE OUTCOME

Parents find admission rules, fees, timings and the school planner in one place. The school shows its activities, competitions and facilities with photos, videos and its songs.

CLIENT PROJECT

What it does

In short: parents find fees, timings and rules.

- **About the school**
  History, key people, staff and holiday dates.
- **School information**
  Timings, admission policy, fee structure, uniform, syllabus and the annual school planner.
- **Competitions and facilities**
  Recitation, song, storytelling and fancy dress competitions, and facilities such as the smart class and computer lab.
- **News, events and contact**
  School news and events, and a contact page.
- **Admission process**
  General, admission and withdrawal rules, and promotion criteria.
- **Activities and celebrations**
  Classroom crafts, outings, festivals, national days, annual day and sports day.
- **Photo and video gallery**
  Photos, videos and the school's songs.

WORKING WITH US

How a project runs

The same four stages for every project, with working software early and the option to stop after any stage.

STAGE 1

Audit

We map the current process and agree on a first release.

STAGE 2

Trial

A working version on your data before the full build.

STAGE 3

Build

Weekly working demos, integrated with your systems.

STAGE 4

Go live

Rollout to one team, then company-wide.

INCLUDED IN EVERY QUOTATION

- Written scope with dated milestones
- Testing before delivery
- Documentation for your team
- Weekly working demo
- Code in your repository from day one
- Free bug fixes in the warranty period after launch

OUR PROMISES

- **NDA before anything**
- **You own all the code**
- **Your first call is with a founder**

Planning something similar?

Send us a few lines about your project. A founder replies within 4 business hours with an indicative cost and timeline, free and with no obligation.
