Interest-based social network for a US startup

Web, Android and iOS apps where people find others who share their interests and post in a familiar feed.

CLIENT	INDUSTRY	PLATFORMS
A US social networking startup	**Startups**	**Web, Android, iOS**

THE REQUIREMENT

The founders wanted a social network built around shared interests rather than existing friendships.

WHAT WE BUILT

We built a social platform where people with the same interests find each other, post and react in a familiar feed format.

THE OUTCOME

People can find others who share their interests and interact with them through posts and reactions.

CLIENT PROJECT

What it does

In short: people find others who share an interest.

Interest-based discovery
People find others who share the same interests.

Posts
Members share posts with people who have similar interests.

Reactions
Members react to posts in a familiar social feed.

WORKING WITH US

How a project runs

The same four stages for every project, with working software early and the option to stop after any stage.

STAGE 1

Audit

We map the current process and agree on a first release.

STAGE 2

Trial

A working version on your data before the full build.

STAGE 3

Build

Weekly working demos, integrated with your systems.

STAGE 4

Go live

Rollout to one team, then company-wide.

INCLUDED IN EVERY QUOTATION

- Written scope with dated milestones
- Testing before delivery
- Documentation for your team
- Weekly working demo
- Code in your repository from day one
- Free bug fixes in the warranty period after launch

OUR PROMISES

- **NDA before anything**
- **You own all the code**
- **Your first call is with a founder**

Planning something similar?

Send us a few lines about your project. A founder replies within 4 business hours with an indicative cost and timeline, free and with no obligation.
