PROJECT OVERVIEW

ERP extension for a manufacturer's existing system

New functions built inside the web ERP the team already knew, with no move to a new platform.

ERP extension for a manufacturer's existing system

New functions built inside the web ERP the team already knew, with no move to a new platform.

CLIENT
A manufacturing company

INDUSTRY
Manufacturing

PLATFORMS
Web

THE REQUIREMENT

A manufacturer already ran its operations on an ERP and needed it to do more.

WHAT WE BUILT

We built an extension to the manufacturer's existing ERP rather than replacing the system.

THE OUTCOME

The manufacturer kept the ERP its team already used and gained the added functionality.

CLIENT PROJECT

What it does

In short: new functions, no new platform.

ERP extension

New functionality added to the manufacturer's existing ERP, working alongside what was already there.

No system replacement

The manufacturer kept the ERP its team already used instead of moving to a new platform.

One system for staff

The added functionality sits inside the existing ERP, so there is no separate tool to open.

BUILT WITH

React · Node.js · Express.js · MongoDB · AWS · GitHub Actions · Git

PLATFORMS

Web

SERVICES

- ERP development
- Custom software development

WORKING WITH US

How a project runs

The same four stages for every project, with working software early and the option to stop after any stage.

STAGE 1

Audit

We map the current process and agree on a first release.

STAGE 2

Trial

A working version on your data before the full build.

STAGE 3

Build

Weekly working demos, integrated with your systems.

STAGE 4

Go live

Rollout to one team, then company-wide.

INCLUDED IN EVERY QUOTATION

- Written scope with dated milestones
- Testing before delivery
- Documentation for your team
- Weekly working demo
- Code in your repository from day one
- Free bug fixes in the warranty period after launch

OUR PROMISES

- **NDA before anything**
- **You own all the code**
- **Your first call is with a founder**

Planning something similar?

Send us a few lines about your project. A founder replies within 4 business hours with an indicative cost and timeline, free and with no obligation.
