PLATFORMS

Web

THE REQUIREMENT

Event and exhibition organizers in India needed a way to run their events online. At a physical venue, the audience is limited to people who can travel there.

WHAT WE BUILT

We built a web platform for running events and exhibitions online, for an online events and exhibitions business to offer to organizers in India.

THE OUTCOME

Organizers can hold their events and exhibitions online, and visitors can take part from wherever they are.

CLIENT PROJECT

What it does

In short: visitors join from any town.

Online events

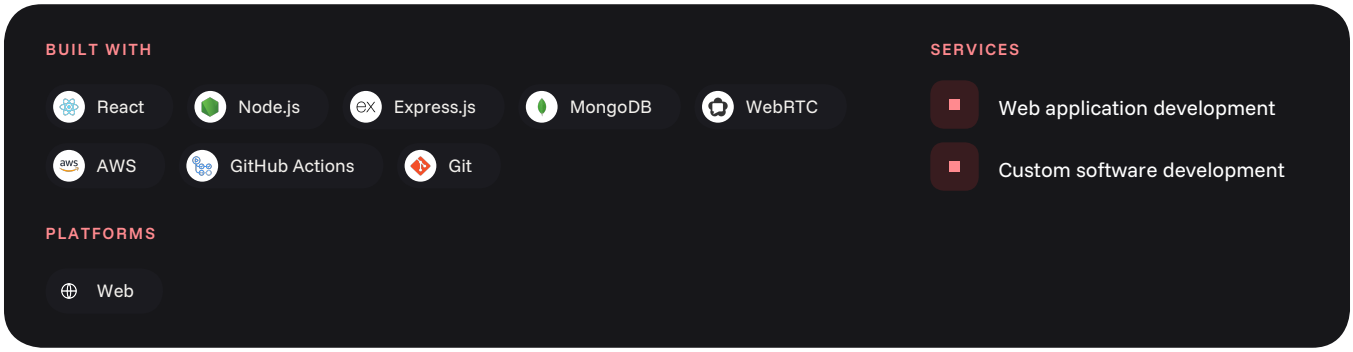

Organizers run their events on the web instead of only at a physical venue.

Online exhibitions

Exhibitions are held online, so visitors can attend without traveling.

Attend from anywhere

Visitors take part from wherever they are, so a show's audience is not limited to people near the venue.
