PROJECT OVERVIEW

Self-managed portfolio website for an individual client

A mobile-friendly site with slideshow, gallery and contact form that the client updates without a developer.

Self-managed portfolio website for an individual client

A mobile-friendly site with slideshow, gallery and contact form that the client updates without a developer.

CLIENT	INDUSTRY	PLATFORMS
An individual client in India	**Startups**	**Web**

THE REQUIREMENT

The client needed a professional website that worked on desktop and mobile, showed their work through photographs and could be updated without a developer.

WHAT WE BUILT

We designed one semi-custom concept, revised it once with the client and built it on a content management system, with up to seven pages, a slideshow, a photo gallery and an email contact form. We set up Google Analytics and hosting.

THE OUTCOME

The client has a mobile-friendly site they edit themselves, with inquiries arriving by email and visits tracked in Google Analytics.

CLIENT PROJECT

What it does

In short: the client updates the site alone.

Semi-custom design
One design concept with a round of revisions, built for desktop and mobile.

Slideshow and gallery
A four-slide image slideshow and a gallery of up to 15 photographs.

Contact form
An email contact form for inquiries.

Editable without a developer
Up to seven pages or sections the client updates in a content management system.

BUILT WITH

Content management system · PHP · MySQL · HTML5 · CSS3 · Google Analytics

Web application development

WORKING WITH US

How a project runs

The same four stages for every project, with working software early and the option to stop after any stage.

STAGE 1

Audit

We map the current process and agree on a first release.

STAGE 2

Trial

A working version on your data before the full build.

STAGE 3

Build

Weekly working demos, integrated with your systems.

STAGE 4

Go live

Rollout to one team, then company-wide.

INCLUDED IN EVERY QUOTATION

- Written scope with dated milestones
- Testing before delivery
- Documentation for your team
- Weekly working demo
- Code in your repository from day one
- Free bug fixes in the warranty period after launch

OUR PROMISES

- **NDA before anything**
- **You own all the code**
- **Your first call is with a founder**

Planning something similar?

Send us a few lines about your project. A founder replies within 4 business hours with an indicative cost and timeline, free and with no obligation.
