PROJECT OVERVIEW

School management ERP for a school

Staff run administration from a browser or the Android and iPhone devices they already own, so the rollout needed no new hardware.

THE REQUIREMENT

Staff needed to handle school admin wherever they were working, and the school did not want to buy new devices to make that possible.

WHAT WE BUILT

We built a school management ERP that runs in any web browser and as Android and iPhone apps.

THE OUTCOME

Staff manage school admin on devices they already carry, so the rollout needed no hardware spend.

platforms: web, Android and iPhone

CLIENT PROJECT

What it does

In short: rolled out on devices staff already own.

Browser access
Staff open the system from any web browser.

Android and iPhone apps
The same school admin, on the phones staff already carry.

No new hardware
The rollout used devices the school and its staff already had.

WORKING WITH US

How a project runs

The same four stages for every project, with working software early and the option to stop after any stage.

STAGE 1

Audit

We map the current process and agree on a first release.

STAGE 2

Trial

A working version on your data before the full build.

STAGE 3

Build

Weekly working demos, integrated with your systems.

STAGE 4

Go live

Rollout to one team, then company-wide.

INCLUDED IN EVERY QUOTATION

- Written scope with dated milestones
- Testing before delivery
- Documentation for your team
- Weekly working demo
- Code in your repository from day one
- Free bug fixes in the warranty period after launch

OUR PROMISES

- **NDA before anything**
- **You own all the code**
- **Your first call is with a founder**

Planning something similar?

Send us a few lines about your project. A founder replies within 4 business hours with an indicative cost and timeline, free and with no obligation.
