CLIENT	INDUSTRY	PLATFORMS
An education technology company in India	**Education**	**Web**

THE REQUIREMENT

Schools in India needed one system to run their daily administration, instead of spreading it across separate tools and paper.

WHAT WE BUILT

We built web-based school management software that schools open in a browser to run their daily administration.

THE OUTCOME

Schools can run their daily administration in one system.

CLIENT PROJECT

What it does

In short: daily administration in one system.

School administration
Schools manage their day-to-day administration in one system.

A product to offer schools
Built as a product schools can adopt, not a one-off tool tied to a single campus.

Runs on the web
Schools use the software on the web.

BUILT WITH

React · Node.js · Express.js · MongoDB · AWS · GitHub Actions · Git

WORKING WITH US

How a project runs

The same four stages for every project, with working software early and the option to stop after any stage.

STAGE 1

Audit

We map the current process and agree on a first release.

STAGE 2

Trial

A working version on your data before the full build.

STAGE 3

Build

Weekly working demos, integrated with your systems.

STAGE 4

Go live

Rollout to one team, then company-wide.

INCLUDED IN EVERY QUOTATION

- Written scope with dated milestones
- Testing before delivery
- Documentation for your team
- Weekly working demo
- Code in your repository from day one
- Free bug fixes in the warranty period after launch

OUR PROMISES

- **NDA before anything**
- **You own all the code**
- **Your first call is with a founder**

Planning something similar?

Send us a few lines about your project. A founder replies within 4 business hours with an indicative cost and timeline, free and with no obligation.
