

CLIENT PROJECT

Operations managers see every team's tasks on one dashboard

Operations teams

IN SHORT

Managers check one screen to see where every task stands, so they stop chasing updates and status meetings make way for real work.

1

screen for every team's task status

THE CHALLENGE

Managers had to chase people for updates to learn where tasks stood, and status meetings ate into working time.

WHAT WE BUILT

We built a custom dashboard that shows the status of every team's tasks on one screen.

AT A GLANCE

INDUSTRY

Operations and logistics

SERVICES

Custom software development

Read the full project: <https://itechnosol.com/our-work/team-task-status-dashboard/>

THE RESULT

Managers see progress at a glance without chasing anyone, and less time goes into status meetings.

PLATFORMS

Web

BUILT WITH

React, Node.js, Express.js,
MongoDB, AWS, GitHub Actions, Git

KEY FEATURES

■ Every team's tasks on one screen

Managers see where each task stands without asking for updates.

■ Less time in status meetings

Time once spent collecting updates goes back into the work.
